	APPROVAL OF STATE ENGINEER
follc	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the owing limitations and conditions:
per sor ing dev mea	at the final water right obtained under this permit will be dependent upon the riod of use and the average number of livestock served from the waters of this urce. It is further understood that this right must allow for a reasonable lower-g of the static water level at permittee's well due to any other ground water velopment in the area. The well shall be equipped with a 2-inch opening for assuring depth to water. If well is flowing, a valve must be installed and mainined to prevent waste. The State retains the right to regulate the use of the ter herein granted at any and all times but does not take responsibility for the
pul	e of the Federal range. This Permit does not extend the permittee the right of ingress and egress on polic, private or corporate lands. The issuance of this permit does not waive the requirements that the permit lder obtain other permits from State, Federal, and local agencies.
